Remarks

In the Office action dated March 19, 2004 (application Paper No. not shown), the Examiner cited all claims 1-22 as containing allowable subject matter, but requested the applicant to correct certain typographical errors to provide the correct antecedent basis for the phrases "firm power load line" and "interruptible power load line". The above amendments reflect these changes. Applicant thus believes that the case, in its amended form, is now in condition for allowance and thus respectfully requests the Examiner to review these amendments and allow this case to pass to issue.

If for some reason or other the Examiner does not believe that the case is ready to issue and that an interview or telephone conversation would further the prosecution, the Examiner is invited to contact applicant's attorney at the telephone number listed below.

Respectfully submitted,

Anthony Francis Sleva
